

Elmwood Cemetery is owned and managed by the City of St. Paul.

Elmwood Cemetery has the following Rules and Regulations:

1. Either flat or upright markers are allowed.
2. No new mausoleum vaults are allowed, only to match an existing one on a lot.
3. An outer burial container is required. It may be either steel or reinforced concrete.
4. The mowing is done by the City of St. Paul and is done at their discretion.
5. The cemetery is a natural grass cemetery and is not irrigated. Water is provided at hydrants at various locations in the cemetery.
6. The City of St. Paul will see that any depressions on the grave spaces are filled. Once the grave has settled, grass will be planted.
7. Flowers must be removed from the grave site by Father's Day or they will be removed by the City of St. Paul unless they are in a permanent vase. No glass jars, rocks, wire or shepherd hooks are to be left on the grave. Hoses or sprinklers are not to be left at the cemetery.
8. Trees, shrubs, benches, structures, concrete benches, chairs and anything put on or around the grave will be removed if not approved by the Cemetery Committee.
9. The City will do the snow removal of the cemetery roads and lanes at the City's discretion.
10. No Pets Allowed.

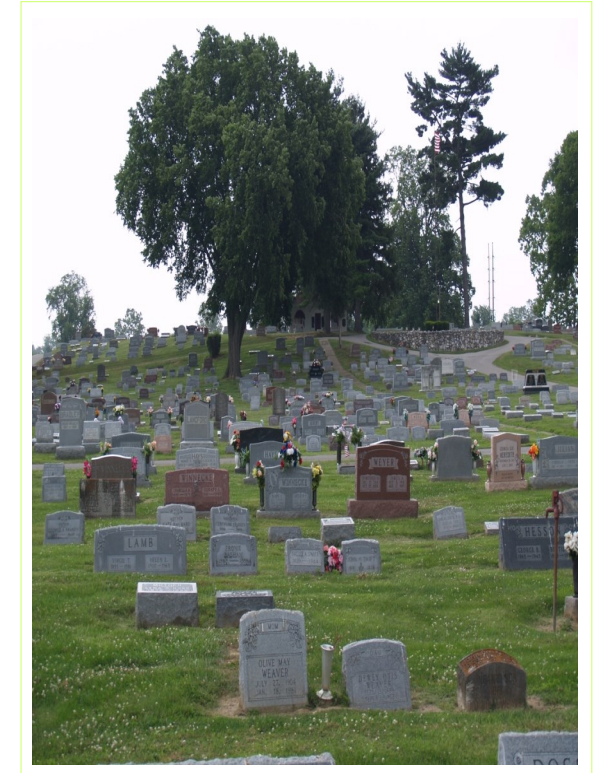

The Cemetery Committee is accepting donations for the improvement of the cemetery. Donations may be made to the general improvement fund for the cemetery or a donation for a specific improvement may be made.

The following items may be purchased as a memorial for a loved one:

Trees \$100.00 each, which includes planting & irrigating by the Committee.

Shrubs and flowers (perennial), which will be planted and irrigated by the Committee.

Elmwood Cemetery

Located South of Adams Street on Jackson Street in St. Paul, NE.

The City of St. Paul has established a Cemetery Committee to solicit ideas and receive donations for improvements to Elmwood Cemetery.

The Committee has put together a multi-year plan to improve the condition and appearance of the Cemetery.

1-3 YEAR PLAN

- 1. Plant Trees
- 2. Construct a fence around the cemetery
- 3. Landscape
- 4. Trim and remove dying or dead trees
- 5. Continue tree planting program
- 6. Hire a part-time caretaker
- 7. New Entrance
- 8. White posts and chain to establish roadway.

4 - 5 YEAR PLAN

- 1. Perpetual upkeep of old stones
- 2. Walk/Bike Trail
